Features

Comfortable Handling

The ergonomically formed handle has soft component to provide increased handling comfort. The angled ends of the handle prevent the hand from slipping.

The 25-year warranty ensures high quality

* For detailed warranty conditions, please refer to the enclosed operating manual or online at www.gardena.com/warranty. This warranty does not affect your legal warranty claims.

Flexible Use

The combisystem Hand Tools are especially flexible, since they can be used with any combisystem handle. This is done by simply loosening the handle via the soft plastic screw, mounting another handle and tightly screwing it into place.

Efficient and Durable

Optimal results are easily obtained with the sharpened, double-sided blade. It is produced from hardened stainless steel and is therefore particularly durable.

Description

For removing grass, moss and weeds

The GARDENA combisystem Patio Weeder is the optimal tool for effortlessly removing moss and weeds from between paving stones, from paving joints and along wall edges. The sharpened, double-sided blade is produced from rust-proof, tempered stainless steel. The ergonomically formed handle, with its integrated soft component, fits perfectly in the hand and is angled at the end to prevent slipping. For convenient working without bending down, the handle can be easily exchanged for any combisystem handle. The Patio Weeder is equipped with a high-quality blade protection, for safe storage. GARDENA provides a 25-year warranty for this tool.
