

## Зарядно устройство Деца за акумулатор 6/12/24 V, 37 A, FL 3713D

Fully automatic battery chargers built with electronic charge control and charging conservation "Floating".

- Suitable for charging lead batteries: WET serviceable and maintenance free, AGM, AGM Power, GEL, Start & Stop, Ca/Ca. Multi step charging - The batteries are charged by applying sophisticated multi-step programs.
- High efficiency - "I-U" Charging characteristic (constant current-constant voltage) minimises battery charging time.
- Floating - Can remain connected to the battery for a long time. Batteries are ready to use at all times.
- Safety guaranteed - Designed to protect vehicle electronics. Non-sparking. Reverse polarity protected and short-circuit proof. Charging voltage is free of interference and voltage peaks. Allow battery charging directly on the vehicle electrical system, without disconnecting the battery. (DIN 40839 interference emission level I)
- Battery Test - Sulphated battery detection.
- "Sulfated Battery Recovery" Desulphation / Equalization programme Regenerate batteries that have undergone heavy discharge cycles. Battery charger suitable for the workshop.

Продукт: [Зарядно устройство Деца за акумулатор 6/12/24 V, 37 A, FL 3713D](#)

Категория: [Зарядни и стартерни устройства](#)

Бранд: [Деца](#)

Категория бранд: [Стартерно устройство Деца](#)
