

Set of Bevel Edge Chisels PREMIUM

Detailed description

The set contains: 6/12/20/26 mm

Inovated chisel with improved cross-section of the blade that minizes friction when cutting into wood. Improved grinding of the edges creates especially thin sides which are in particular needed in dovetailing.

Ergonomic handle from hard and hefty hornbeam wood is strong enough to withstand heavy mallet blows. Combination of the stained hornbeam handle, brass plated ferrule and improved grinding of the blade creates a unique design of the tool.

Blade

- forged from highly alloyed Cr-Mn steel
- heat treated up to 59 HRC
- fully ground and sharpened
- thin sides for sidewall clearance

Handle

- ergonomic with round cross-section
- stained hornbeam wood
- brass-plated ferrule
